100	February 8, 1977	Keith	REA		SCOTT
101	February 8, 1977	ROBERT	MCLEOD		HENRITZE
<p><i>Brothers Scott and Henritze pledged with the class listed as being initiated on December 13, 1976. However, since each were first semester freshman, both were technically ineligible to pledge Kappa Sigma during that semester. Both men were, in fact, formally initiated with their pledge class in December. Since their initiations could not be processed until they completed an academic semester, their initiation paperwork was not filed until the beginning of the next full semester (thus the record date of February 8, 1977). This explains why each man has an initiation number greater than their fellow initiation class. An explanation as to why these two not were not recorded in the Roll Book in alphabetical order is unknown; it is assumed this anomaly represents a recording error.</i></p>
